FRIDAY SEPT. 20th 1940

NUMBER 24

Taylor Stake Quarterly Conference Program

Quarterly Conference of the Taylor Stake of Zion will be held Saturday night and Sunday in the Stake House, with Bishop J.L. Wirthlin representing the General authorities.

At 7:30 Saturday evening a special meeting of Stake and Ward Welfare workers will be held when a review of the year's activities will be made. Members of Bishoprics, Relief Society workers and Ward and Stake Welfare committee members are asked to be present.

At 9:15 Sunday morning a special Priesthood session will be held featuring Aaronic Priesthood work, and the first general Conference session will convene at 10:30 Sunday morning.

At 2 p.m. the ceremony of placing the record box and name plaque will be held, with the Stake records being sealed in an imperishable copper box.

The afternoon session will begin at 2:20 p.m. and the evening session at 7 p.m. will be under the direction of the Stake Mutual officers.

WEDDING BELLS

EHLERT — McBRIDE

The wedding was solemnized on Wednesday of this week of Henry, son of Mr. and Mrs. Theodore Ehlert, and Margaret, oldest daughter of Mr. and Mrs. Ira McBride, with Pres. Edw. J. Wood officiating. Parents of both young people and other relatives, including the grandparents of Margaret, Mr. and Mrs. L. C. Woolley, were present to witness the ceremony and wish the young people happiness and success in their matrimonial journey.

Friends of Henry and Margaret had busied themselves during the session decorating the bridal car, and when they came out the car was well painted with "Just Married," and so on, with old cans, old shoes and what not attached for a ride through the town, which followed the ceremony.

Both young people are well known in Raymond. Margaret, having been in the Mercantile for the past year, and Henry been working with his father and for himself in the stuccoing and plastering trade for a number of years. They are building a new home near the Frehlin Dahl home just west of Broadway, and they have the best wishes of the community for this happiness and success in life. They are at present on a short honeymoon trip.

FINLEY — LAMB

St. Augustin's chapel was the setting on Friday, Sept. 13, for the wedding of Miss Melba Leila Lamb of Picture Butte, daughter of Mr. C. W. Lamb of Raymond to Mr. John Ray Finley of Picture Butte. The ceremony was performed by Rev. P. C. Wade. There were no attendants. Mr. and Mrs. Finley will reside at Picture Butte.

NEWS NOTES

LADIES: Watch for special Red Cross announcement next week.

Miss Macdonald a new stenographer for the factory arrived in town from her home in Blairmore Thursday.

Bert Martin, fireboss in the Alexo coal mine at Nordegg, Alta., was killed Sunday when his lamp exploded igniting gas in the mine and the explosion caused the roof and the walls to cave in.

If you don't like writing by hand, get a Reington Portable. They are streamlined and are built to stand the test. You'll never go wrong with a Remington. We are local agents.—The Recorder.

Two Weeks At Sarcee

(By one of the Boys)

Raymond's members in the Non Permanent Militia or to be more exact, the 6th Field Park Company R. C. E., have all returned from their 15 day training period at Sarcee Camp. They came home sun-burned and tanned and very talkative concerning the wonders and advantages of army life. In shortened form, here is how the boys spent their fifteen days.

"I think Sunday, Sept. 1, was the worst day of the lot. We left Lethbridge at two in the morning and after getting off the train in Calgary, we had to walk the seven miles out to Sarcee. It was in the train that we first ran across that lovely old ballad, 'The Village Pump' which I hope you never have to hear.

We rolled out of our straw pallets at six o'clock the next morning and got ready for the day with twenty minutes physical training. Shaving in ice cold water was something of a test for patience. We learned a number of new words the first day. Then came breakfast, an ordeal to which we quickly became accustomed. The days did not vary greatly for the first week except for two days when things slowed down slightly for the rain.

The second week is one which most of us will remember. We had learned our simpler army lessons and now we were treated

ed to some of the more interesting and more complicated ones. We spent a day on the range and came home with sore shoulders and another day with respirators and in the gas-hut. Two very interesting days were used in showing the troops the action of a platoon in modern warfare (with experienced permanent force men acting as guinea pigs) and in demonstrating the use of the Bren L. M. G. and of the three inch trench mortar. We were shown the night fire of rifles and machine guns using tracer ammunition and the bright rocket lights used to illuminate No Man's Land.

With the beginning of another week, the sudden change back to civilian life may have left us a little dazed, but certainly none of us would trade those two weeks of military life for two of any other.

If at any time you see some of the boys going down the street muttering, one pause, two pause, Three—They are practicing rifle drill. Rhythmic was learned so well that the boys were eating and sleeping by numbers.

Activities are going to be carried on during the winter months and with the support of Raymond people we hope to put on a play or two and a few dances to help with training expenses. We need your help and we know we'll get it.

Bombing School In Lethbridge Largest In The West

AIR TRAINING UNIT TO MEAN SPENDING LARGE SUM IN NEW BUILDING

KENYON FIELD SEEN AS FINEST AIRPORT IN WESTERN CANADA—SIX HANGARS WILL BE NEEDED—START WORK ON NEW CONTROL TOWER—TO USE HEAVY AIR CRAFT

When the new bombing and gunnery school of the British Commonwealth air training plan is built at Lethbridge, not only will Kenyon Field be the largest and finest civil aviation airport in Western Canada, but it will accommodate the largest air school.

Today Kenyon Field and plant represent an expenditure of over \$500,000. When it is completed for the air training scheme it will represent approximately \$1,500,000, the largest establishment in Lethbridge.

MANY ADDITIONS
Here are, tentatively, the additions to be made to the field to accommodate the bombing and gunnery school:

Two more 3,000-foot runways hard surfaced.

School site of 45 acres.
Six hangars, 224 feet by 160 feet.

Six airmen's sleeping quarters for 136 men each.
A mess hall for airmen.

An officers' quarters and mess.

A non-commissioned officers' quarters and mess.

A 34-bed hospital.

A drill hall.

Five bombing instruction units.

Three machine gun turret units.

Four indoor ranges for machine gun turrets.

A sports pavilion.

A number of small buildings.

BUILD CONTROL TOWER

In addition, there will be a control tower, the contract for which is already let to W. B. Shand, Lethbridge contractor, who has begun work on the building. By means of this tower all planes, military and civil, will be dispatched and landed at the airport.

An important feature of the bombing school will be a lake at some distance to be used as a bombing range. Here there will be erected a motor transport garage, a boat house, an observation tower, a quadrant shelter, a variety of rafts and other targets. Moving targets will be used for bombing practice. There is much speculation as to the lake which may be chosen for the bombing range. It will require to be some distance from habitation though the bombs used are only loaded to 11 pounds. Eighteen Mile Lake, Chin Lake and Keho Lake are all mentioned as possibilities.

Airways engineers in Lethbridge have during the summer completed the grading of the two additional runways at Kenyon field. But these are not hard surfaced. The port already has two 4200-foot runways hard surfaced to the extent of 3,000 feet.

USE HEAVY PLANES

What class of machines will be used is not known. They will be heavy machines but not so heavy as the Lockheed Hudson bombers so much used by the

R.A.F. in the combat zone. The machines will be heavy enough to be little bothered by winds which, at times, sweep South Alberta, and which have bothered on occasion the little Gypsy Moths being used by the elementary school now located here. There are reports that the bombers will be the single engine type.

Although there will be, it is stated, 1,000 men located at the new bombing school, together with 70 to 100 planes. The school will be somewhat larger than the service school located at Calgary, and all 3 branches of air crews will attend—air pilots, who will come from the service flying schools for two weeks machine gun and bombing practice; air observers, who aim the bombs, and who will spend six weeks on bombing and machine gun practice; and air gunners who will specialize in gunnery for four weeks after they graduate from the wireless training school.

In addition to all this the water lines will have to be laid from Lethbridge to the airport, either from the avenue on the south of the town or from the Exhibition grounds. Surveyors are busy now running surveys to determine which course to follow. This will cost between \$30,000 and \$40,000 and the expense will be borne by the Dominion government. The capacity of the power line will have to be increased from 150 to 600 kilowatts, and transformers for this change have been ordered by the city of Lethbridge and will be shipped from Toronto on September 26. This will cost an estimated \$3,500 which expense is being taken by the city.

All in all the school will be one of the largest in the Dominion and Lethbridge and Southern Alberta are happy to get this fine school and glad to have the geographical and other requirements to fill the need for such an important link in army training.

—Lethbridge Herald.

NEWS NOTES

Mr. and Mrs. Reg. Cooper and Thos. Forsyth were Cardston visitors Sunday.

President T. Geo. Wood and Counselor Heber F. Allen were at the Cardston Temple last Wednesday.

Theodore Ehlert and son Rex, were in Picture Butte working the first part of the week returning home Tuesday evening.

Elder Jas. S. Anderson was in Magrath last Sunday evening and gave a very interesting talk to a large audience in the Magrath 2nd Ward.

Mr. and Mrs. Wilbern Johnson and daughter Rula, of Barnwell were Raymond visitors Monday afternoon last.

Elder Guy Alexander was the principal speaker at the First Ward Sunday evening last reporting on his mission to Switzerland and the Eastern States. Miss Alice Snow, Elders Lydell Roberts and Snellie Redd, all fairly recently returned missionaries spoke briefly, rounding out a very interesting program.

Raymond Sugar Factory Will Begin Run Tuesday

GRAIN QUOTA RAISED TO EIGHT BUSHELS—

STORAGE BIG QUESTION

The end of last week, the Grain Board announced an increase of three bushel per acre in the quota of deliverable grain in the district, making Raymond's quota eight bushel. With some of the elevators already filled to the roof, and others nearing capacity, with the five bushel quota still a long way from being filled, this added another headache to local elevator men.

It had been estimated that the five bushel quota would amount to between 225,000 and 230,000 bushels and construction started Monday morning on a 35,000 bushel annex at the Bawlf elevator, with Voss brothers of Calgary doing the work, and lumber arrived during the week for a 35,000 bushel annex to the Ellison elevator here, which added space would just about have taken care of the remainder of the five bushel quota. Bawlf's annex will be receiving next week, Ellison's will not be completed for another two weeks. These annexes we understand are temporary only, being built on wooden sills, double boards with a tarpaper between being the construction.

Elevator men fear that farmers already finished threshing will now deliver the remainder of their 8 bushel quota and some other farmers, who have not even started threshing, will be left out entirely unless added facilities are provided or some of the grain moved out. It presents a real problem, as even with the 8 bushels delivered and paid for at the pegged price, it will still give the farmer a very small amount with which to start paying his obligations, and to date no announcement for advances on stored grain has been forthcoming from government officials.

Frank Thorpe who left two weeks ago on holiday, is remaining in the Calgary district working for the Calgary Power Co. for a time. One of their men in that district is in hospital and Frank is relieving for him.

To assist in the War Savings Stamp campaign, teachers of the local schools are encouraging their pupils to bring their nickels and dimes and invest in War Stamps which the teachers sell at school every Thursday. The idea is a good one and parents should co-operate to teach the children thrift and also to build up their patriotism. The last two Thursdays the teachers have sold \$50.00 worth of stamps at the Public School.

Beet Seed Grown Here

Production of beet seed is to be tried out in the district. This requires the planting of beets this fall, digging them before frost and storing the roots to be planted again early next spring to produce seed next fall.

Failure of seed supply from continental Europe has made a move necessary and it will be keenly watched by all interested. It requires considerable work to take the beets up and twist instead of cutting the tops off this fall, & then they would have to be carefully planted next spring to give them every chance for growth and development.

Moved ahead one day because of ripening of beets and crop, slicing will begin Tuesday Sept. 24th at 8 a.m.

The beet harvest is under way in Southern Alberta. Far from hitting its stride yet, beets are being dug in quite a few fields and deliveries are commencing at both factories, and by the first of the week, nearly every point in the district will be receiving beets.

The rain of last week has made the roots nice to dig and they are coming out of the ground fairly free from dirt. Sugar content is a little low right now, but will increase as the digging advances. Estimates are that over 300,000 tons of beets will be harvested this season over the district resulting in a sugar make of more than 90,000,000 pounds, the largest output yet.

CADET TRAINING IN SCHOOLS

According to announcements from Edmonton, cadet training in Alberta schools will commence in the near future, and students of Grades XI and XII will be given credits for proficiency in this work. The training will be for the boys only, and while lower grades may participate, they will not be given any credits for their time thus employed.

It is hoped to find teachers already on the staff of the school with the necessary training, and it is hoped to compensate these teachers for their extra time by additional grants from the Departments concerned. 22 calibre rifles will be used, and rifle ranges will also be put up so the boys may be taught how to handle a gun and be proficient in marksmanship. Training will be entirely optional and students may or may not take part. The training will be handled jointly by the department of education and officials of Military District No. 13.

Honor came to Canada over the week end when Lt. R. Davis of the Royal Canadian Engineers, directed his suicide squad in removing the 1,100 pound bomb from its hole 27 feet in the ground near St. Paul's Cathedral in London, where it had lain for two days. It was a delayed action bomb and after hours of labor and getting it loaded onto a truck it was taken to the marshes away from the town and blew a 100 foot crater in the marshes when it was set off. Only the cool and very dangerous work of these engineers saved St. Paul's from destruction the London press said.

HAVE YOU REGISTERED

Each year, on the second Monday in February, there is much wailing and gnashing of teeth around Raymond. That's the day on which our municipal elections are held. It is also the day on which people who have "lived here for years" find that they are not on the voters' list and in consequence town officials and election officers are accused, either openly or sub rosa, of conspiracy to deprive eligible voters of their franchise. A little trouble at this time of year may save much grief later on, and a clear understanding of the regulations will give everyone who is entitled thereto a

chance to vote.

If your name was on the last revised assessment roll of the town (that is, if you were assessed for taxes in the year 1940) your name will automatically appear on the voters' list. If you are not on the list, action will be necessary. However, the wife, husband, father, mother and each son and daughter (if over the age of 21 years) of an assessed property owner is also entitled to vote, but in order to secure the franchise these persons MUST register with the Secretary Treasurer of the Town during the months of September and October.

If you are a tenant, renting an assessed parcel or portion of an assessed parcel, for at least 12 months prior to August 31, 1940, you are entitled to vote ONLY if you have registered. You MUST register during the months of September and October.

If you are the wife husband father, mother, son or daughter of a tenant who is registered as above, you are entitled to a vote also, but ONLY if you have registered. You MUST register during the months of

September or October.

Persons desiring to register must obtain forms from the Town Secretary and then appear before a commissioner for oaths to have the form duly signed.

To summarize: If you have been assessed this year, your name will automatically appear on the voters' list. If you are a tenant or a close relative of a property owner, or if you are a tenant or a close relative of a tenant, you are entitled to vote ONLY if you have registered during the months of September or October, 1940.

Remember, it's up to YOU to see that your name appears on the voters' list. Don't wait until next February to find out that your name does not appear—Register NOW and save regrets.

Edmonton—Alberta farmers have honored their debts "as well if not better" than farmers in other parts of Canada, according to P. L. Watson, vice-president of the Commercial Credit corporation on a recent visit to Edmonton. "We aren't at all worried about our investments in the west," said Mr. Watson.

NEW USES FOR WHEAT

The facts about Canada's wheat crisis are disturbing. We have 665 million bushels to sell abroad this year. The world cannot possibly absorb it; not that part of the world to which we can still ship.

We shall be pouring out tens of millions of dollars to pay for an store wheat that we cannot sell. We are doing nothing to ensure that we do not keep on growing more wheat than we can sell. In fact, our present policies encourage more people to grow more wheat—wheat for the taxpayer to carry.

In a world where there is starvation one does not like to think of deliberately setting out to raise less wheat. If we cannot sell all our wheat abroad and if we hesitate to curtail production too drastically at home, then there is only one escape from our dilemma. We must find new ways to use wheat.

Last week the Financial Post told about the work of the National Research Council in trying to solve this problem. Most of the studies had been directed toward finding some industrial use for wheat. If we could do that we would not need to worry. So far the research has led to no startling discoveries. It should be continued. The Dominion Government should give our scientists a substantial vote to expand their studies of wheat uses. A few thousands for such work is trifling beside the millions it is costing us to grow more wheat than we can sell.

It does not seem that enough study has been given to ways of turning wheat into food products other than flour and bread. If we cannot sell wheat perhaps we can sell more of it as eggs, bacon, or beef.

In Canada we admire and promote the scientific spirit. But we do not apply science to our daily lives as much as do the Nazis who despise the scientific spirit. Science should be able to help us solve our wheat problem.

One of the first steps toward solving the problem would be to find out exactly what wheat is. We have been thinking of it as a bread cereal. We must begin to think of it as so many basic chemical elements and then decide how we can use those elements to advantage in building a stronger people and a more prosperous Canada—Financial Post.

On Tuesday President Roosevelt signed into law the first time peace draft bill in the United States and immediately issued a proclamation requiring the registration on October 16 of men 21 to 35 years old which will number 16,500,000 estimated state.

Quebec—More than 16,000 men are now engaged in operating the Empire air training plan, according to J.S. Duncan, Deputy Minister of national defence for air. He said there are now 29 schools training 4,500 pupils as pilots, gunners and observers, and before the end of the year 19 more would begin. Mr. Duncan called the air training plan "the prelude to victory."

WATCHMEN OF THE SKIES

Every British anti-aircraft post is equipped with modern instruments—thus the task of continually watching the skies is made easier for those who man the posts night and day.

WAITING FOR THE DAY

French People Looking Forward To Release From Nazi Rule

Walter Kerr, former Paris correspondent for the New York Herald Tribune and some time broadcaster on trans-Atlantic, gave a quiet but telling description of the old French capital under Nazi rule, on radio program "We the People." Kerr, whom some listeners may have recalled for his graphic pictures of the situation in Czecho-Slovakia two years ago, arrived via Clipper, after Nazi censor killed six or seven stories he wrote. The tale he related was different from those cabled and aired out of Paris.

Parisians and French people are not reconciled to German domination, he said. For the present they have to live, but "some day we will find out who betrayed us and we will come back." Kerr stated Paris was plastered with posters showing German soldiers feeding French children. Despite death penalty for defacing them, he had not seen one which was not torn badly.

French people also give food and money to escaped British prisoners although this also involves death penalty. In addition to telling of Nazis goose stepping, to band music, past the tomb of the Unknown Soldier every afternoon, with French ignoring the parade, Kerr spoke of the most "terrifying" newsreels on bombings, etc., shown by Germans in Paris. The few French patrons who watch screenings give no outward indications of their reactions except "occasional gasps."—Variety, New York.

BOMBING AND GUNNERY SCHOOL FOR LETHBRIDGE

Lethbridge is to have a bombing and gunnery school which will accommodate 100 aircraft and a large number of students. Construction will commence at once and will be pushed to completion.

It is estimated that \$900,000 will be spent in construction at the new school, and it will be known as bombing and military school No. 8 under the Empire Air Training scheme.

The present elementary flying school which has just graduated its first class of students will be moved to some other location, and negotiations are being carried on with High River to have this school removed to that point.

In the new school, some fairly large sized lakes will be needed for bombing practice, at a point far enough removed from the school and from towns so as not to disturb residents and to assure safety. There are a number of such lakes near Lethbridge, and as soon as target locations are decided on the work of constructing machine butts and towing targets will be proceeded with.

This new school will give Southern Alberta added importance in the preparation of R.C.A.F. men to take their places in the struggle for democracy and freedom from dictatorships.

NEWS NOTES

The A.G.H. and L. Club met Friday afternoon at the home of Mrs. Anne Turner. Mrs. Delia Woolf gave a book review of the Best Sellers of the Year. The officers for the coming year were chosen as follows: Miss Norma Snow, President; Miss Myrtle Johnson, Vice-President; Miss Edith Woolley, Sec.-Treas. A delightful lunch was served to the sixty members present by the hostesses, Mrs. Anne Turner and Mrs. Minnie Litchfield.

Principal Lyman H. Jacob of the High School gave a very interesting talk to the Rotary Club last Monday on the present condition of International affairs. The trade of England and the United States of air bases for destroyers; Japan and her plans in the near East, Italy and her dreams of power in Africa and Southern Europe and the War situation today were the main points touched. Steele Brewerton contributed a piano solo to the program.

Three slightly deaf men were motoring from the north to London in an old, noisy car, and hearing was difficult. As they were nearing the city, one asked:

"Is this Wembley?"
"No," replied the second, "this is Thursday."
"So am I," put in the third. "Let's stop and have one."

Calling out men of certain age classes for medical examination, and if fit, to undergo military training for a period of 30 days within Canada, or the territorial waters thereof.

PROCLAMATION

ATHLONE
[L.S.]

CANADA

GEORGE THE SIXTH, by the Grace of God of Great Britain, Ireland and the British Dominions beyond the Seas KING, Defender of the Faith, Emperor of India.

TO ALL TO WHOM these Presents shall come or whom the same may in anywise concern.

GREETING:

PROCLAMATION

WHEREAS it is provided by The National Resources Mobilization Act, 1940, that the Governor in Council may make from time to time such orders and regulations requiring persons to place themselves, their services and their property at the disposal of His Majesty in the right of Canada for the use within Canada or the territorial waters thereof, as may be deemed necessary or expedient for securing the public safety, the defence of Canada, the maintenance of public order, or the efficient prosecution of the war, or for maintaining supplies or services essential to the life of the community;

AND WHEREAS pursuant to the powers therein contained, and the provisions of The War Measures Act, our Governor in Council did on the 27th day of August, 1940, make regulations to provide a system for calling out men for military training within Canada and the territorial waters thereof, such regulations being known as the National War Services Regulations, 1940;

AND WHEREAS pursuant to and in accordance with the said Regulations, it has been decided to call out for military training, as aforesaid, every male British Subject who is or has been at any time subsequent to the first day of September, 1939, ordinarily resident in Canada and who, on the first day of July, 1940, had reached the age of twenty-one years but had not yet reached the age on that date of twenty-two years or had reached the age of twenty-two years but had not yet reached the age on that date of twenty-three years, or who had reached the age of twenty-three years but had not yet reached the age on that date of twenty-four years, or who had reached the age of twenty-four years, but had not yet reached the age on that date of twenty-five years and who was on the fifteenth day of July, 1940, unmarried or a widower without child or children;

NOW THEREFORE KNOW YE that pursuant to The National Resources Mobilization Act, 1940, and the War Measures Act, and pursuant to and in accordance with the National War Services Regulations, 1940, promulgated under the provisions of the said Acts, we do hereby call out the aforesaid classes of men to submit themselves for medical examination and to undergo military training for a period of thirty days within Canada or the territorial waters thereof, and to report at such places and times and in such manner and to such authorities or persons as may be notified to them respectively by a Divisional Registrar of an Administrative Division appointed by the Governor in Council pursuant to the above mentioned regulations.

OF ALL OF WHICH Our Loving Subjects and all others whom these Presents may concern, are hereby required to take notice.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Dear Uncle, Our Right Trusty and Right Well Beloved Cousin and Counsellor, ALEXANDER AUGUSTUS FREDERICK GEORGE, Earl of Athlone, Knight of Our Most Noble Order of the Garter, Member of Our Most Honourable Privy Council, Knight Grand Cross of Our Most Honourable Order of the Bath, Grand Master of Our Most Distinguished Order of Saint Michael and Saint George, Knight Grand Cross of Our Royal Victorian Order, Companion of Our Distinguished Service Order, Colonel in Our Army (retired), having the honorary rank of Major-General, One of Our Personal Aides-de-Camp, Governor General and Commander in Chief of Our Dominion of Canada.

At Our Government House, in Our City of Ottawa, this eleventh day of September, in the year of Our Lord one thousand nine hundred and forty, and in the fourth year of Our Reign.

By Command, E. H. COLEMAN, Under-Secretary of State

Published for the information of those concerned
by the authority and courtesy of
HONOURABLE JAMES G. GARDINER,
Minister of National War Services.

The above is verbatim copy of Proclamation appearing in The Canada Gazette, No. 25, Vol. LXXIV, September 13th, 1940.

PASS NEW ORDER

FOR TRAILER BRAKES

New regulations have been passed by the provincial highway traffic board dealing with trailers, according to information received by officials of the Alberta Motor Association.

Under certain conditions all trailers or semi-trailers must be equipped with proper braking mechanism, according to the order.

The order is as follows: "On and after Jan. 1, 1940, all trailers having a carrying capacity in excess of 5,000 pounds in accordance with the tire equipment, as provided by these regulations, and all semi-trailers must be equipped with adequate braking mechanism under the control of the operator, provided, however, that all trailers or semi-trailers built or purchased prior to Jan. 1, 1938, shall be allowed to operate without the necessity of providing such braking mechanism until April 1, 1941. . . ."

The order provides that the new regulation is not to apply to two-wheel trailers used without a platform.

Growth of trailer traffic in this province is causing interest among motor club members and

is expected to be a subject for consideration at annual meetings this fall of branches of the A. M. A. This year, many tourists' cars from the United States had trailers.

Regina—Hope of a new agreement providing for a substantial increase in the exports of Canadian bacon to Britain was expressed recently by Hon. J. G. Taggart, chairman of Canada's bacon board. The present agreement, by which 5,600,000 pounds of bacon are shipped weekly, expires October 31. This market, together with the domestic consumption, is now absorbing the entire hog supply, said the chairman, but until the new agreement is completed it will be impossible to tell how long present prices will continue.

The solicitor became somewhat nettled in his cross-examination, but the insignificant looking little woman in the witness-box didn't.

He snapped: "You say you had no education, but you answered my questions smartly enough."

The witness replied meekly: "You don't have to be a scholar to answer silly questions."

HERE'S A LOW COST PLAN TO help your studies!

A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students!

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10¢ a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK

with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

SPECIAL CARRYING CASE

Included in the purchase price of your Remington Portable is a smartly designed Carrying Case.

A CRUISER COMES IN

Weeks at sea behind it, a British cruiser comes into dock for a refit. In a few hours it will be headed seaward again, its vigil in keeping terror from the world's trade routes resumed once more.

island in a world dominated by dictatorships.

While Britain stands the oceans are barriers to, rather than highways for, aggressors.

While Britain stands "fifth columnists" in America remain merely slinking plotters, lacking great military or economic support.

While Britain stands America can spend some time on building a two ocean navy.

While Britain stands there is time to debate preparedness in the United States.

While Britain stands those who fail to read the lessons of history can say she is fighting only her own battle.

NEWS NOTES

Elder Alma G. Evans was the main speaker at the 2nd Ward Sunday evening, relating experiences and reporting his mission to Holland. Alma labored first in Holland until the missionaries were recalled, and finished his mission in Eastern Canada. He related some interesting and amusing incident of Holland and gave a fine talk. His father, Elder J. W. Evans spoke briefly and expressed his joy at having his son home after an enjoyable mission.

Alberta's wheat crop, now more than 80 p.c. cut, will be the greatest in the history of the province, according to departmental estimates, and it will top the 200,000,000 bushel mark easily. But as yet no definite plan for the relief of agrarians has been formulated, according to Ottawa advices. Hon. J. A. Mc Kinnon has been delegated to meet the representatives of the west in the matter. Meanwhile, the Wheat Board has announced permissible increases in delivery quotas at 29 more prairie points, including 6 in Alberta.

The Horseshoe Falls hydro electric plant as badly damaged by fire Monday when a spark ignited the oil in a transformer and set the building ablaze, the fire having to burn itself out because of the machinery running in oil, 8,000 gallons of oil in all had to burn up before the blaze could be brought under control, but after thorough investigation police and Calgary Power Co. officials owners of the plant, decided there was no sabotage connected with it and that the conflagration which

destroyed the transformer, and high tension rooms was purely accidental. The Horseshoe Falls plant is 55 miles west of Calgary.

The newly-arrived Scotsman applied for a job. "Are you a mechanic?" asked the foreman.

"No," answered the Scotsman, "I'm a MacTavish."

Thanksgiving Day this year has been fixed for October 14, the second Monday in the month.

Prime Minister Churchill announced that Britain's civilian casualties during August raids totalled 1,075 killed and slightly more than that number as wounded.

**DRIVE WITH CARE
WHEN NEAR SCHOOL**

Warning to motorists to use extra care when approaching or passing schools is sounded by the Alberta Motor Association. Schools have again opened. There will be thousands of small youngsters attending school for the first time. Many of these will be unaware of the dangers that lurk on the highways from speeding cars or other vehicles. Many accidents occur when the kiddies are at play. They dash across the street or roadway, chasing a ball or having other games during the recess period, without thinking that a car may come along at any moment. The entire responsibility for protection of the child should not be placed on the motorist. Parents and teachers should also show their co-operation by warning children before leaving home and later in the classroom, that they should "stop, look and listen" before crossing the street, in the opinion of officials of the A.M.A. On the other hand, there will be A.M.A. boy patrols in operation at some schools to help the smaller children in crossing the street safely. Many schools have not yet reached this stage, making it all the more necessary for motorists to exercise extreme care when in the vicinity of any school zone.

NEWS NOTES

Every ward in the Taylor Stake was represented by one or two car loads of people at the opening session of the Temple on Wednesday when 130 people were listed in the first company of the day. Mrs. Emma Kovach, 29 of Taber, succumbed to the effects of gopher poison she took Sunday morning while her husband was away from the house. She was a very nervous disposition and doctors think she took the poison while temporarily deranged. She leaves her husband and small daughter Irene to mourn her passing. L.D. King of King Motors and W.A. H. Minger went to Calgary early Tuesday where Wilford took delivery of a new three ton Ford truck, incidentally one of the largest farm trucks built. Wilford drove the Ford back and L.D. came back in the Mercury, both making the round trip in one day.

**ENGLAND WILL
ALWAYS LIVE**

(By George Matthew Adams.)
As an American, living and writing, for a portion of each year, upon Canadian soil, and loving its people and its unspoiled beauties of nature, I hear and read so much about what is going to happen if England dies.

England is not going to die. It is not even going to be conquered. England will always live. "There'll always be an England!"

An England in every intelligent mind and heart in all the world. An England with a Keats, a Shelley, a Shakespeare, a Bacon, a Dr. Johnson, a Galsworthy, a Rupert Brooke, and a Browning. It was the latter who wrote in the Epilogue to "Asolando," the following lines: "One who, never turned his back, but marched breast forward,"

Never doubted clouds would break.

Never dreamed though right were worsted, wrong would triumph.

Held we fall to rise, are baffled to fight better, sleep to wake."

This brief extract could well be the spirit of England today. It describes her accurately. How much of her character is embodied in that part of the line quoted — "are baffled to fight better, sleep to wake."

Anyone born in the United States, can well review his heritage of ideas, his love of independence, his freedom to come and go as he pleases, and to worship in his own way—these and a nameless number of others, having been bequeathed to him by England. Her art and literature alone are priceless treasures to us all. But her character—rock-bound as it is—most of all.

On that historic Island—steeped in holy traditions—with a stream of daggers, aimed at her very heart is being enacted one of the most amazing spectacles of defensive bravery in all the annals of Time—comparable only to Thermopylae. No intelligent person can doubt that England will always live!—Leth. Herald.

The department of agriculture estimates that 90 p.c. of the wheat in the Province has been cut and either combined or is standing in stock.

**FIRE PREVENTION
WEEK DESIGNATED
OCTOBER 6th to 12th**

Sunday, October 6th to 12th inclusive has been designated as Fire Prevention Week throughout Canada by an extra edition of the Canada Gazette, containing a proclamation by Under-Secretary of State E. H. Coleman.

In urging that measures for prevention of fires be taken individually and collectively and that educational campaigns be carried on during the week, the government calls attention to some highly interesting statistics concerning fire losses in the Dominion.

During the past 19 years 816,000 fires in Canada have destroyed insurable property valued at more than \$726,000,000.

During the same period, 7,726 persons died and more than 24,000 were injured through fires.

It is suggested in the proclamation that inspections as required by law be made of all public buildings such as warehouses, factories, theatres, hospitals, asylums, hotels and other institutional buildings, during the week. Fire drills in public schools should also be held.

In addition special instructions as to fire prevention is suggested for schools and through the medium of Boy Scout leaders and by government bodies.

NEWS NOTES

Bishop Wirthlin, accompanied by Geo. S. Ashton, Taylor H. Merrill and J. A. Pingree of the Church Office staff arrived in Raymond Thursday and will be here for Conference.

Singly men and widowers, 21 and 22 years of age are receiving their letters notifying them to report, starting about October 9th, for a thirty day military training period. This information was given out early this week by Chief Justice Horace Harvey of Edmonton, chairman of the Alberta draft board.

Hyrum J. Fromm was in Calgary the latter half of last week, and while there passed the preliminary examinations for entry into the R.C.A.F. He is at home again now, subject to immediate call when he is wanted and there is a position open for him.

Stanley Hutchison, with the C.A.S.F. in Calgary is home on leave for a day or two. Stan is a military police in the barracks at Calgary, and is on draft to go east, so it may be some time before he sees Raymond again. We wish him luck and good health in his future services for his country.

Are You Providing
The **LIGHT**
Necessary for
Achievement?

87% of all the impressions your youngster will receive through his entire life . . . 87% of all the knowledge and skill he will acquire in building his career . . . will come to him through his eyes. Clear, strong vision will ever be an invaluable asset, yet it's an asset that can be permanently impaired through continued hours of eyestrain and nervous tension during early years. Young eyes are like young bodies—still immature. Provide them with adequate light for easy seeing and you'll provide the light necessary for building a successful career.

Better Light — Greater Achievement
